sample. Mr. Russ then explained that the damages at first sight might appear rather unconscionable, but the baskets were required for a special purpose—for the export trade to Singapore—and there were only eight firms in the Colony engaged in that time of export so that there. was not a ready basket market, The baskets were eventually sold to a wine and spirit merchant.

He explained what it cost to make a basket, saying that the cost of material was 30 cents. The labour cost about 40 cents and the balance was profit. The profit was small and it would not exceed more than \$10 if the price had been paid.

The case put forward by Mr. McCallum was that defendants ordered a delivery of baskets. They accepted delivery of them then and on the strength of that ordered another 200. Plaintiffs fendered delivery, of 60 of the baskets but they were not up to the previous for so defendants rescinded the whole contract. After some further delay defendants agreed to accept the 60 at a reduced price of 60 cents. (Proceeding.)

VICTORIA REGATTA.

SOME KEEN CONTESTS.

ROYALS LOSE FLAG.

Fine weather, smooth water, keen contests and a holiday crowd are essential to the success of a Regatta. All these elements were yesterday when the fifty-third regatta, under the auspices of the Victoria Recreation Club, was concluded.

Just before noon, the launch "Stanley" arrived with H.E. the Governor (Sir Reginald Stubbs, K.C.M.G.), the G.O.C., (Sir John, Fowler, K.C.M.G., C.B., D.S.O.), the Chief Justice (Sir William Rees Davies, K.C.), Commander C. W. Beckwith and a party of ladies on

board. Challenge Cup, open to Garrison won by 12 lengths. six-oared gigs, were donated by Sir John: Fowler. The donors were present during the decisio of these two events, after which the party returned to Hongkong.

The arrangements yesterday were far more satisfactory than out the previous day. The starting marks had all been whitewas a gun there washed. the Judges' launch so that the winning crews knew when to relax their efforts, and there was little delay between events: The Inter-Club Junior Pairs fell through owing to the Royals not putting in an appearance. In place of this there was a race for Junior Pairs for which three crews turned out. There was a tedious delay at the start owing to certain competitors refusing to comply with the starter's orders, one of the rowers the same, with the Royals out

The dinghy race, the sixth event, by 1/3 of a length. and the Scratch Fours (which rang) down the curtain) were productive of much amusement owing to the wild steering of the fair coxswains. From yesterday's exhibition, resulting in damage to one of the fourcared boats, it would be prudent to eliminate these events on future occasions unless the coxswains

are fitted to handle the tiller ropes. The V. R. C. won, all the Inter-Club events. . For the first time in the history of the Royal Hongkons: Yacht Club its rowing captain has had to hand over the Club Flag. This happened yesterday when the V.R.C. won the Chater Challenge

At the conclusion of the day's racing Mr. W. Logan, the Chairman of the Regatta, before introducing Mr. D. K. Blair (who distributed the prizes), paid tribute to those responsible for the success of the fixture. He mentioned especially it, winning by 4 lengths. the names of Capt. Newby (Transport Officer). Capt. O'Farrell (Clerk of the Course), Mr. E. T. Crocker, Competitors' Steward and last but not least Mr. E. W. Carpenter, the starter, whose handling of the crews was so noteworthy especially on Saturday when the water was rough. Mr. Logan paid tribute to the donors of prizes, to those furnishing launches and to Mr. Dalziel for so kindly lending his yacht, the "Plover," as flag-ship for the occasion.

Before presenting the prizes, Mr. D. K. Blair, Vice-Commodore of the R.H.K.Y.C., related part of a conversation he had had with Mr. Findlay Smith, yesterday morni 1g. Mr. Smith was an official at a V.R.C. regatta 52 years ago and, like all old timers, it would appear that he considers things were better managed then. Be that as it may, Mr. Blair pointed out the keenness showr at the regatta just concluded bore eloquent testimony to the fact that the "sport was worthy of support." The speaker congratulated the V.R.C. crew on capturing the flag from the Royals and trusted the V.R.C. committee would order a new silk flag so that the Royals could recover it next time

the crews met. After Mr. Blair had presented the cups for sailing he announced, amid applause, that he had decided, with the permission of the Committee of the R.H.Y.C., to offer a championship cup to determine the best sailing man in the Colony. The R.H.Y.C. Committee will invite the six leading sailing men in the Colony to compete in this event in the new "Hayward Hays" Boats. The decision will be

reached by a process of elimination. Mr. Donald Logan then handed to. Mr. Dreyer the Royals' flag, saying that he did so with two feelings, was a gap of nearly two lengths. One of deep distress because since he had been in the Colony this was the first occasion on which the Royals had lost the flag. The second feeling, however, was one of pleasure because he had to hand the flag personally to Mr. Dreyer, a rowing man who had done any amount of work to foster the sport in the Colony. Mr. Dreyer, in a few the meeting closed with cheers for Mr. Blair and the crews of the R.H.K.Y.C., pro bsed by

WIRELESS WORLD CHAIN.

LONDON, April 1st. Mr. Godfrey C. Isanes (Managing-Director of Marconi's Wireless Telegraph Co., Ltd.) stated that he is only awaiting the issue of a licence by the Government to begin immediately the erection, in England, of the first of a series of powerful Marconi transmitting stations, forming a world chain for purposes of rapid commercial wireless.

The telegraph station will really be a group of six stations, involving a capital expanditure of from two to three millions sterling. Each of the six stations will be able to communicate simultaneously with six different parts of the world. Yet, i there is a rush of messages to any one centre, any or all the remaining stations can be turned on to relieve the pressure. This is expected to be most valuable commercially, as the geographical distribution of the big centres will be such that their rush hours will not occur simultaneously The six stations, it is estimated, will have Mr and Mrs C. S. a total minimum transmitting capacity of 35,000 to 40,000 words per hour.

The English station will be ultimately linked up with ten other stations, to be situated in South Africa, Australia Montreal, Vancouver, India, Buenos Rio de Janeiro, Pernambuco, Peking and Tokio. It is hoped that the English station will operate within a
